

BASICS OF DPF CLEANING & MAINTENANCE PNEUMATIC CLEANING DEMONSTRATION

**Do you want to avoid the expense of replacing a DPF?
Cleaning Early Saves Money and Preserves Filter Capacity!**

O'Halloran International
Altoona/Des Moines
August 3, 2010
11:30 a.m. & 4:30 p.m.
Meal provided for pre-registrants.

This seminar is designed for technicians, shop and fleet managers.

Participants Will See and Discuss DPF Cleaning Options & Practices

1. Pulse cleaning versus FSX Trapblaster. (FSX technology will be demonstrated.)
2. When DPF filter cleaning should be done. Why earlier is better.
3. O'Halloran technology and learning – pneumatic (phase 1) and thermal cleaning (phase 2).
4. Cleaning results (before and after) documented.

Check Out Our Newly Remodeled Service Area. See the Only Air Knife Cleaning in the Area

Training is at O'Halloran International
3311 Adventureland Drive
Altoona, IA 50009

FSX Technology in Altoona
Stage 1–Pneumatic using 'air knife' FSX technology
Stage 2 – Optional thermal cleaning on-site

----- Register by Friday, July 30, 2010 -----
